WHATSAPP COMMUNITY & ANNOUNCEMENT GROUP

9 Oct 2026

E-Ministry team has created a **Parish of Christ Church Community** and a group "**Announcements"** through WhatsApp

1. Phones numbers of Church members who had earlier opted for the Broadcast Message Service will be added to this **Community** and **Announcement** Group by the community admin.
2. If any member wish to join or your phone numbers were changed, please submit the Google form , upon verification by the church office, you'll be added to the group.
3. Members can leave the community whenever they want too!
4. Members are **not required** to save church phone number in their contacts.
5. Master device will be linked with the church landline number +65 6299 2544 and it will be the main Community Admin to send announcements.
6. There can be multiple community admins, including Office staff, Pastors and E-Ministry members who'll be eventually assigned a Community Admin role to manage announcement messages.
   Note: As an example, if the Church office secretary sends a message it will be from her own mobile number but identified as a community admin, if you have saved her number in your phone, it'll appear with the name saved. Similar to other community admins.
7. To protect privacy, members contacts/phone number in the group is only visible to the Community Admins and NOT to the other members in the community.
8. Members may reply to announcement messages; however, to keep the group focused and avoid unnecessary notifications, members are kindly requested to refrain from replying.
9. Community Admins can delete the replies if necessary.
10. Members cannot send a new message or create a chat in the group.

A screen shot of how it'll appear for a member is shown below.
